Subject: Re: Letter of Comfort - Chandrakant Patel

Thanks Chandrakant for formalising this in writing, given this has been an implicit mutual understanding for a well over a year.

You're aware this has been inflicted not only on myself by Mr Busfield, but Mr Hayward and Mr Linton. All of which have raised their concerns to you when Mr Busfield's true intentions were exposed at various points in the first half of 2018.

I take this mutual understanding works on the basis of our continued effort to collectively correct the wrongdoings undertaken by Mr Busfield.

Kind regards,
Jase.

Dear Jason.

To provide you with comfort and clarity.

Based on the facts that are known I believe that you like myself and many others

were duped by Mr George Busfield into signing various documents to do with Reatime Analysis and News Limited, The Jet Group Limited, The Jet Group Services Limited and Trade The News Limited.

His pitch of "i am the good guy, "i am doing what's best and right for the company" "trust me" turns out to be nothing more than what amounts to a premeditated theft of third parties shares and non transparency of the related businesses of which huge sums have been transfered to his private company GCV LTD.

On the above facts and assuming there is no material change in the facts or legal positions, I would like to make it clear that I have no intention of holding you liable or responsible for his premeditated actions and any documents that you may have naively signed, been duped into signing or that have been forged.

Mr Busfield has known that there was a verbal deed of trust with the shareholdings prior to any deed of trust he may have presented you with to sign, which would make any subsequent deed of trust or documents invalid.

I hope this provides you with the comfot that you require.

Regards

Chandrakant Patel
