Guessing you are just going to continue to ignore me?

Why can't you provide these documents? You ignored my June 2018 email and did nothing to validate the changes made on Companies House were approved by me. No attempt was made to ensure Mr Dimitrov was really a director or purchased the shares (he would need to complete J30 forms and pay me for the shares). Why do you ignore me? Why does Healy's continue to promote Mr Busfield on its website, given he is clearly a fraudster. It is shambolic.

You can't even be bothered to give me a reason.

This is pathetic David. You need to be be ashamed of your self.

Jase.

Mr Bailey,

I note I sent the following email to you well over a month ago now. Do you have no intention of replying? Much like your so-called client, Cynthia and George Busfield, I find this ignorance towards my emails quite rude, but unsurprising.

The matter shall be escalated next week with the relevant parties.

Regards,  
Jase

Mr Bailey,

Thank you for continuing to ignore my emails, overtly and irrefutably.

You are more than aware of your client's fraudulent actions. Yet, you seem to be happy to promote him on your website.

You have seen that my concerns are not isolated. Other parties have been vocal critics of your client's actions since I raised them to your attention on 26th June 2018. You ignored the fact I told you I did not authorise these changes made on Companies House.

For such assignment like the one undertaken on the 26th June 2018, you will be well aware it would require my consent, yet in your emails from last year, you decided to pull the wool over my eyes.

Such consent would need formal documentation, and thus my wet-signature be present on any documents making any assignment. My signature is a personally identifiable piece of information. General Data Protection Regulation law permits me to make requests for documents containing this via a subject access request. I am requesting copies of these document(s), which will need to be dated between Aug 2016 and June 2018. I am of the understanding a Deed of Trust document may exist. Please outline when your client furnished you with such document(s). Please confirm if the document is the original document. You have forty days to provide this. I trust you will produce this by the close of business on 2nd Nov 2020.

Regards,  
Jase.

Mr Bailey,

While it has been a long time, I have noticed I never got a proper reply.

Unfortunately for me, I realise Mr Voce and Mr Busfield have actions that are still a cause for concern, hence the digging up this email.

Please confirm who has been instructing you from JETGS in regards to these matters. Have you been instructed in relation to JETGS since the email below?

Jase.

Hi David,

As you may have seen from emails between myself and George (and the various other people who act as his facades), Mr Busfield seems to be doing a good job of falling out with many in the business.

It occurred to me that Healy's seems to have stopped acting on behalf of JETGS and Mr Busfield.

Can you please confirm this? I note George has started using another company based in Staffordshire, called ORJ Solicitors LLP.

I note Mr Busfield is copying you and many other unrelated parties

into emails relating to myself who are not acting on behalf of the company (e.g. Verona Cox of Setfords, Mr Rones, KIRIS to name some that have shared email chains with yourself). I've very concerned, because I believe Mr Busfield is breaching GDPR regulations by doing this.

Anyway, despite my minor quarrel earlier in the year, hope you are keeping well.

Regards,  
Jase.
