Adam Voce,

Please authorise (belt and braces and I will crack on).

Thanks

G

Subject: RE: Authorisation For, And Procurement of New Phone Insurances, Services & Products to Support Company Development and Quality of Service.

Hi Jase

Me too on the 4G Backup Technology Infrastructure (somewhere) - - but semi- good backup - as said will call inevitably to discuss etc any way and thanks for updates

FYI - I am reading about - Lord Chief Justice Morgan (The Judge in the Livesquawk Fraud / Phoenix Fraud). AND subsequently Richard Moriarty and XXXX (confidential Contacts x3 also senior press reps). Rich is an "associate" whom I can approach at the Sun.

ALSO James Talbot - an old school friend of Adam's now very senior at the bank of England.

Seems inevitable need friends to approach and seek justice. Remember in all of this the fact that I / we / you / the team and the recent company have done nothing but try and pursue what is true and right and just ... we are still 2 years on fighting the cheating / deceiving / fraudulent / I argue simply "degutant" individuals.

AND LET'S BE FRANK - AT THE CORE - ORCHESTRATING IT ALL BEHIND THE SCENES IS THE "ALLEGED MR SONNY SCHNEIDER" - Playing with other people's lives and families and health as if it was Dungeons and Dragons ...

And truth be told Jason (Between you and me alone as imperative I do not show this to others) - I am scared - scared that the right and wrongs will come true and be laid evident but after my own demise and death.

This is not a metaphor.

I have given all of myself and more to see right done here - indeed Schneider specified "pay me £1.2m for shares, pay for the office, pay for my unfair legal costs" - and we did it all to enable people to get on with their lives.

BUT LET US BE HONEST - IT WAS INABSOLUTE VAIN. He started stealing intelligence and information and data from the company the very next day.

We - or rather I was naïve to think we could give every penny there was and that be the end of it.... And so thus here we are today.

And that is wrong. That is NOT a fair justice system. Where the more money you have the more chance

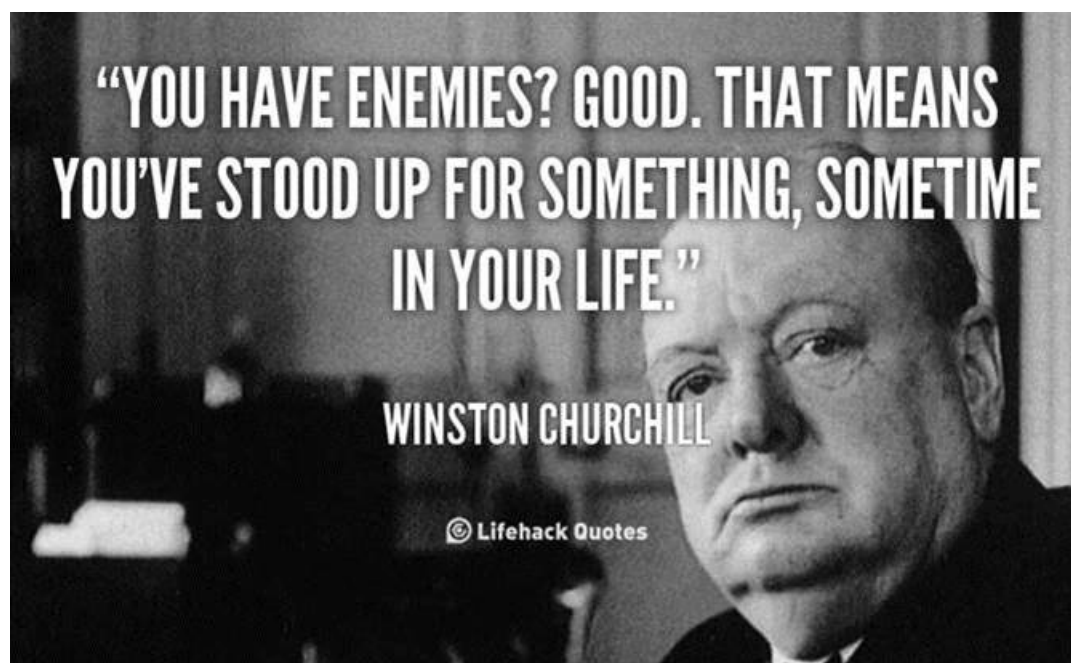

you have to win.

Anyway. I will remain steadfast. But solely between you and I my friend – yes I am scared – but I will NOT back down to yet another bully manipulating the system or his tribe of deprived prefrontal disciples.

And as ever – you are a good man. I will be aside you until I cannot or I cry like a baby that we may just have achieved something Miraculous. I will do my best – but good or bad – I don't know how to back down against something of such principal and so the chips will fall where they may. Ans so ... "Once more unto the breach dear friends".

And Indeed - Your Friend,

G

All authorized. Did look at TV licensing and the cost is no different to a normal residential license (£147) so relatively minimal, I think I asked Aub to follow up on that. Evi has some of the equipment for a minimal 4G if the main Wifi goes down.

Jase.

Dear Jason, Adam,

As you know I have been severely struggling with my phone not working and given the current challenges and opportunities facing the business I am in need of a replacement.

I will therefore seek to buy one asap and if ok, rather than claim back the cost – in the interest of time saving - I will have the company pay direct via the bank or the JET credit card – assuming this is ok with you Jason? (And Adam if you can authorise too please that would be great just for belt and braces!).

Please reply approved to this mail if so. Thanks

In addition to the above there are a few other Accounts / Memberships I have discussed with Jason and others - this evening / previously - and Jason also mentioned that a TV licence might be needed for the office in due course etc - so accordingly please can you similarly authorise your agreement and approval for me to setup and arrange for the direct payment of these accounts by the business as described above given these will be either for direct use by the business or staff or for use by an individual in order to assist the business in its development and identification of opportunities and quality of service as the company moves forward.

Subject to your approval to this email – I will review and assess the relevant services and process the procurement of the services for the benefit of the business. Please note that I may have to use your name Jason / Adam or mine as may suit best, and choose an easy and appropriate address etc to acquire the service(s) or assets but subject to your approval I will review satellite channels, fibre optics lines, News and broadband providers and basic backup support IT or services such as a simple 4g hotspot to cover if all internet services in the office drop out!. (which I think may already have). In addition I will / have been looking and will again secure on the company's behalf as described / subject to your agreement services such as Directors Insurance, Public Liability Insurance, Business Continuity Insurance, Legal Costs Cover, Professional Indemnity etc. (Aubrey / Nicola and myself have been working with Charles Milne but just never got round to it o I will try and finally secure that too as it is a legal requirement to have Employers Liability I think. (He has sent through the details for me to reply)

With the above in mind, please authorise this email and thus the various requests within, in order that I may proceed to procure the relevant services and / or products described above or any otherwise, including TV licence if possible / required, and save only as I deem appropriate in my own discretion for company's use or benefit directly or otherwise.

Please Reply by return with your authorisation or queries.

Kind Regards

George
