Whoever is in charge in sorting this, I assume Adam? Please for the love of god just get this all sorted by COB today.

We face enough headwinds in doing our day to day job with the inefficient management of the business from Stoke, should we lose any of these systems, the business will simply stop functioning, staff will walk out and this will be on you.

I know you tend to ignore my emails but try show a bit of competency and at least execute the task in hand

Setanta invoice

Hi Adam

I've answered my own question about 'nothing paid' on Friday as have just had Archie chasing me for his 'train expenses'. We now also have a Setanta invoice (attached) that needs paying.

How soon can last weeks and this weeks incoming service invoices be paid please?

I'll likely have InFront asking again today and my main concern (other than the unprofessional delay having had a Santander account for 1 month) is, and I stress again, we lose a service that paramount to the functioning of the desk and the service!!

Hi All

Just had this from Ricky Strachan our account manager at InFront also:

Hi Aubrey,

I hope all is well.

Are you free for a quick call this week to discuss your account?

Our accounts teams have been in contact regarding non payment.

Please let me know if you are free for a call.

Do I assume nothing has been paid since payroll at the end of last month?

Thanks

Aubrey

Hi Aubrey,

This is all being pulled together now and will be relayed when complete.

Re Santander Versa has access just waiting on there token so they can raise payments etc.

Re Paypal again Versa has access just having an issue with Ryans full access, should be rectified imminently if not now - in the short term I can pull any reports required.

Regards
Adam

With no visibility of company banking facilities, Versa having no PayPal access, no ability for Ryan at Versa to raise payments and no obvious approval protocol combined with ZERO response to anyones emails we are severely struggling just to function!

We are dealing with the top Banks and Hedge Funds globally and most likely the top 5% of the Worlds earners trading financially and we badly need to move on from this poorly timed business operations.
